

PUT OUT IN COLD; SHE ASKS DECREE

Forced to Leave House in Night
With Temperature 10 Below,
Wife Charges in Bill.

STRUCK WHILE IN BED, CLAIM

Alleges Male Hit Her With Blackjack
and Caused Her Arrest—Requests
An Injunction.

Charge in her bill that her husband Ernest H. Matson, struck her with a blackjack while she was in bed and made her leave the house, clad only in her night clothes when the temperature was 10 degrees below zero. Minnie H. Matson filed suit today for a divorce.

Besides the usual charges against her husband, she alleges that he caused her arrest by the East Moline police and was to blame for her being held in the East Moline jail without proper food or clothing. On top of this Mrs. Matson further accuses her husband of telling her that "if you return home I will kill you."

Asks Injunction.

Besides seeking a divorce from her husband the complainant asks an injunction restraining him from disposing of his property. She relates that he has property to the value of between three and four thousand dollars, including two house boats on the river at the foot of Fourth and Fifth streets, East Moline. She also says in her bill, that her husband has money in a bank in East Moline and in a Davenport bank. According to the petition they were married at Clinton, Iowa, July 15, 1914, and lived together until Dec. 8, last.

DR. COFFEY SUCCESSFUL.

It is an unusual thing to hear of a person who is blind in both eyes they cannot see, or so that they have to use a hearing apparatus to be restored to sight and hearing without a surgical operation that people will talk about it when it happens. Anyone visiting the office of Dr. W. O. Coffey in the First National Bank building, Davenport, Iowa, will meet a crowd of people waiting to be treated, afflicted with all manner of eye, ear, nose and throat troubles. He has treated a good many cases where the patients were so blind they had to be led, and many cases where the patient was so deaf they could not hear a conversation, restored sight and hearing with mild medicines. He is curing cataracts, relieving head noises, straightening crooked eyes and removing adenoid growths by his new system of treatment. He is in his office every Saturday, Monday and Tuesday. He offers to treat any new cases one (one free) to show how his treatment acts. He is a reliable oculist and aurist.—(Adv.)

SCHOOL CHILDREN TO PAY ONE CENT MONTHLY TO ORDER

Rock Island school kiddies are going to do their bit for the Red Cross. Yesterday every child attending the public schools signed a pledge to the effect that 1 cent per month would be given for the maintenance of the work being done by the local chapter. Although the donation by each child is small, the grand total will amount to \$20, which sum will be given once a month to the society.

The movement was started in the schools as a result of the campaign which is being carried out by the 23 committees in behalf of the Red Cross.

In 1793 two important manufactures were begun in the United States. Eli Terry of Plymouth, Conn., was the first to manufacture clocks as a business, and Samuel Slater of North Providence, R. I., erected the first mill for the manufacture of cotton yarns.

Christmas Gifts

That Are Attractive and Appropriate Can Be Selected From Our Stock

Now that the gift problem is confronting you, why not let us help you select something that will not only be appreciated, but appropriate as well. Friendship, as you know, can find no more fitting expression than through a remembrance which becomes a perpetual reminder of the giver's generosity. Therefore let us suggest the gift. It need not necessarily be expensive, just so it possesses individuality and elegance, that denotes exclusiveness and good taste.

A small deposit will hold any article until Xmas.
